

f

Worked output for all six candidate links

Element	Gene	$A_\star$	$\bar{C}$	$A_\star \bar{C}$	PACE score	Status
E1	G1	4	3	12	0.571	scored
E2	G1	6	1.5	9	0.429	scored
E3	G1	0	3	0	0.000	scored
E1	G2	4	5	20	withheld	withheld (NA)
E2	G2	6	1	6	withheld	withheld (NA)
E3	G2	0	NA	NA	withheld	withheld (NA)

A measured zero (E3) is a valid observation; a single unresolved contact (NA) withholds every score of that gene. Values are illustrative.
